Fabrication Method:

Molded

End Application:

Grumman a-10 aircraft

Friction Lining Material:

Asbestos composition

Application Type:

Dry

Segment Quantity:

1

Drum Diameter For Which Designed:

7.250 inches

Features Provided:

Friction lining

Surface Condition And Location:

One side ground

Drum Width For Which Designed:

1.500 inches

Actuation Method And Location:

Lever internal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
