Fabrication Method:

Woven

Width:

0.562 inches

Overall Length:

2.188 inches

Thickness:

0.125 inches

Hole Arrangement Style:

Single

Friction Lining Material:

Asbestos composition

Lining Style:

Rectangular block plain

Application Type:

Dry

Hole Type And Quantity:

2 countersunk

Features Provided:

Flexible friction lining

Surface Condition And Location:

One side ground

Attachment Method:

Riveted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
