**Width:**

Between 6.969 inches and 7.031 inches

**Thickness:**

Between 0.760 inches and 0.780 inches

**Hole Arrangement Style:**

Double even

**Friction Lining Material:**

Iron, sintered

**Lining Style:**

Segment plain

**Arc Length:**

Between 10.133 inches and 10.153 inches

**Minor Radius:**

9.250 inches

**Application Type:**

Dry and oil

**Hole Type And Quantity:**

6 countersunk

**Features Provided:**

Rigid friction lining

**Attachment Method:**

Riveted

**Special Features:**

Countersunk on outer arc

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A230a0
