End Application:

Front axle assembly, air compressor, type mc-1a

Design Type:

Pivoting spindle

Axle Construction:

Bar

Track Width:

56.000 inches

Furnished Axle Components:

Tie rod and spindle and hub

Special Features:

Cross-sectional shape: square; design form: straight; yoke location: on spindle; wheel type: pneumatic tire; wheel dia: 9.000 in.; c to c distance between beam kingpin holes: 42.500 in.; largest wheel bearing surface dia: 1.625 in.; spindle lg: 4.375 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
