**Fabrication Method:**

Woven

**Width:**

13.750 inches

**Thickness:**

3.000 inches

**Hole Arrangement Style:**

Double even

**Strengthening Feature:**

Interwoven wire

**Friction Lining Material:**

Asbestos composition

**Lining Style:**

Bulk lining

**Hole Type And Quantity:**

10 countersunk

**Features Provided:**

Flexible friction lining

**Surface Condition And Location:**

One side ground

**Attachment Method:**

Riveted

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A230a0
