Fabrication Method:

Woven

Width:

13.750 inches

Thickness:

3.000 inches

Hole Arrangement Style:

Double even

Strengthening Feature:

Interwoven wire

Friction Lining Material:

Asbestos composition

Lining Style:

Bulk lining

Hole Type And Quantity:

10 countersunk

Features Provided:

Flexible friction lining

Surface Condition And Location:

One side ground

Attachment Method:

Riveted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
