**Segment Quantity:**

1

**Drum Diameter For Which Designed:**

13.500 inches

**Features Provided:**

Friction lining

**Surface Condition And Location:**

One side ground

**Drum Width For Which Designed:**

2.500 inches

**Actuation Method And Location:**

Hydraulic cylinder internal

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A230a0
