Overall Length:

2.250 inches

End Application:

Mk 49mod0, truck, destructor, handling assembly, mns

Load Capacity:

650.0 pounds

Design Type:

Solid cast disk

Bearings:

Included

Bearing Type:

Roller

Tire:

Included

Hub Characteristic:

Integral

Lubrication Fitting:

Provided

Tire Characteristic:

Integral

Axle Recess Diameter:

0.875 inches

Material:

Rubber and aluminum

Material:

Rubber and aluminum

Reference Number Differentiating Characteristics:

Magnetic permeability shall not exceed 2.0 after fabrication

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T307-t
