Strengthening Feature:

Internally molded-in reinforcement

Fragility Factor:

Moderately rugged

End Application:

1730-01-294-7774

Application Type:

Dry

Segment Quantity:

1

Drum Diameter For Which Designed:

203.0 millimeters

Storage Type:

Unheated warehouse

Surface Condition And Location:

One side grooved

Drum Width For Which Designed:

40.0 millimeters

Special Features:

Non-asbestos brake shoe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
