Thread Direction:

Right-hand

Thread Length:

Between 2.940 inches and 3.060 inches

Thread Size:

1-16

Body Width:

Between 1.480 inches and 1.520 inches

Body Thickness:

Between 1.480 inches and 1.520 inches

Screw Thread Series Designator:

Un

Thread Location:

Internal

Construction:

Solid

End Connection Type:

Plain threaded

Bend Quantity:

2

Rod End Lock Clamp:

Not included

Special Features:

Tie rod, steering; material ansi 1045 crs rd; material specification astm a108; drawing has full thread series designator reading as un-2b, not just un

Material:

Steel

Material:

Stainless steel

Shape:

Bent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T307-m
