End Application:

Multi purpose engineer vehicle, tractor whld, high speed

Product Name:

Dryer reservoir module

Special Features:

The function of the dryer reservoir modul (drm)is to provide heavy vehicles with an intergrated vehicle air dryer, secondary reservoir, purge reservoir, governor and a number of the charging valve components in a module.Includles an intergrated solution air dryer(ad-is), a reservoir(including a pseratepurge reservoir section) a governor andfour pressure protection valves

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-h
