**General Description:**

Aluminum and steel construction, steel parts to be cadmium plated, 4.190 in. O/a lg, 2.340 in. O/a w, operating pressure 3.0 psi, designed for gasoline and fuel oil, solenoid valve operation method, direct current type, current voltage 24 volts, 1/8-27 nptf inlet connection, bracket mounted, 0.203 in. Diameter two mtg holes, furnished with electrical leads

**Fsc Application Data:**

Personnel heater, vehicular compartment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
