Spline Major Diameter:

1.250 inches

Mounting Type:

Flange

Spline Quantity:

14

Mounting Hole Quantity:

4

Mounting Bolt Circle Diameter:

5.000 inches

Drive Shaft Type:

Splined, involute internal

Shaft Rotation Direction:

Clockwise and counterclockwise

Shaft Protrusion Length:

0.310 inches

Connection Quantity:

6

Connection Type:

Inlet and drain

Connection Design:

Flanged

Displacement Type:

Variable

Constant Displacement Per Revolution:

0.050 cubic centimeters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-f
