Overall Width:

1.180 inches

Overall Thickness:

0.750 inches

End Application:

M1a2 tank

Nominallength:

10.500 inches

Special Features:

Material for outer surfacetfe coated glass, fabric for abrasion resistance and chemical barrier up to 400 degrees f; inner material - flexible multi layers of microporous glass microfibers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51100
