End Application:

2320-01-353-9098 truck chassis; w/s fmv

Mounting Configuration:

Ball and stud locted in center back of mirror head, for use with washers and tube clamp (items 8 and 9) or long l-bracket (item 7)

Mounting Location:

Outside

Frame Diameter:

127.0 millimeters

Mirror Shape:

Round

Product Name:

5" mirror head assembly

Special Features:

Anext higher assembly 12422442-001 mirror assembly, rearview. Similar to 9340-01-478-3889 which has a convex mirror head with mounting stud and ball located on back towards bottom of the mirror.

Surface Treatment:

Paint

Supplementary Features:

Mirror case is steel iaw astm a653 b90 or astm a527 g90 and finish iaw 122420325 method 5, color 37070 lusterless black, or stainless steel iaw astm a240, finish iaw 12420325 method 7

Surface Treatment:

Painted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T312-g
