Width:

13.5 inches

End Application:

End item is listed as a boat

Product Name:

Pic-a-watt/fan forced/corrosion resistant

Voltage In Volts:

120.0

Special Features:

Material is stainless steel. The wattage is adjustable with settings at 250, 500, 750, 1000, 1250, and 1500. clearance: zero clearance to insulation, 4 inches above floor, and 6 inches from adjacent wall.

Height:

7.5 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01300
