Effective Length:

132.000 inches

Core Construction:

Wire rope

Flexible Conduit Material:

Steel

Core Diameter:

0.500 inches

Core Processed End Connection Type:

Adjustable threaded adapter

Flexible Conduit Outside Diameter:

0.812 inches

Travel Distance:

3.000 inches

Core Material:

Steel

Special Features:

Both ends swivel type w/lubrication fittings mtd on swivel housing, has special rubber covering and lubrication for 65 degrees f working temp and equipped w/water proof protection bellows on each end

Fsc Application Data:

Boom winch and auxiliary winch, tank, m174

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524c0
