Mounting Provision:

Unthreaded mounting holes

Bore Diameter:

4.750 inches

Compressed Length:

79.250 inches

Extended Length:

137.000 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

Fork type (clevis)

First End Largest Inside Diameter:

1.000 inches

Mounting Type And Location:

Fork piston rod end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
