Gripping Accommodation Type:

Plain

End Application:

F/a-18 aircraft

System For Which Designed:

Nonpressurized

Retaining Device Type:

Chain

Retaining Device Length:

12.000 inches

Filler Neck Diameter For Which Designed:

1.500 inches

Criticality Code Justification:

Feat

Special Features:

Weapons system essential

Special Markings:

Loosen slowly

Material:

Steel vent actuator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A083a0
