Current Type:

Dc

Environmental Protection:

Corrosion resistant

Prime Mover Type:

Electric motor

Inclosure Type:

Any acceptable

Duty Cycle:

Intermittent

Operation Method:

Power

Capstan Spool Mounting Position:

Vertical

Capstan Spool Surface Design:

Plain

Capstan Spool Quantity:

1

Drive End Location:

Same side

Drum Surface Design:

Plain

Winch Length:

26.620 inches

Transmission Type:

Automatic

Storage Type:

Unheated warehouse

Voltage In Volts:

12.0

Supplementary Features:

ENDI-TE-M23-2001

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02800
