Core Construction:

Wire rope

End Application:

2350-01-091-5405

Core Processed End Connection Type:

Adjustable threaded adapter

Features Provided:

Knob and locking feature and adapter and rotary adjustment provision

Core Material:

Stainless steel

Special Features:

Control assembly push pull throttle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524c0
