End Application:

2530-01-494-0856 reservoir, brake fluid; w/s tractor, aircraft towing mb4

System For Which Designed:

Pressurized

Retaining Device Type:

Hinge

Special Features:

Rectangular shape with rounded corners. length 12.030 inches, 0.44 inch wide groove to fit onto reservoir lip. For use with 5w mineral oil brake fluid

Special Markings:

Warning clean filler cap before removing. Use only 5w mineral oil brake fluid from a sealed container

Material:

Plastic

Material Specification:

Nylon 6 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A083a0
