Prime Mover Quantity:

1

Current Type:

Dc

Prime Mover Type:

Electric motor

Inclosure Type:

Fully enclosed

Operation Method:

Powered

Drum Diameter And Location:

2.500 inches first drum

Braking Method:

Electric

Winch Length:

21.040 inches

Transmission Type:

Automatic

Voltage In Volts:

24.0

Special Features:

8000 lbs single-line rated pull; series wound; remote control; 3-stage planetary geartrain; 216: 1 gear ratio; 100 ft 5/16 in. Wire rope; roller fairlead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02800
