Inside Diameter:

1.500 inches

Overall Length:

11.062 inches

End Application:

Fuel and electronics system

Specific Use:

Fuel and electronics assembly

Criticality Code Justification:

Feat

Product Name:

Fuel fill elbow

Special Features:

Critical technology, export control; 316 stainless steel; 90 degree elbow, 6 bolt flange connection, grooved connection

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A520u0
