Width:

Between 0.940 inches and 1.060 inches

Temperature Rating:

-40.0 degrees fahrenheit and 158.0 degrees fahrenheit

Length:

Between 5.440 inches and 5.560 inches

End Application:

M88a1/m88a2

Cushioning Material:

Rubber foam, synthetic

Mounting Method:

Pressure sensitive adhesive

Product Name:

Pad, rubber

Special Features:

Color black. Durometer oo scale 45-55. Protective peel layer on adhesive side of rubber

Material Specification:

Astm d 1056 national specification single material response

Shape:

Horizontal rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T141-e
