Maximum Inflation Pressure:

70.0 pounds per square inch

End Application:

Special aircraft and engine tool and support equipment

Features Provided:

No flaps

Tire Ply Arrangement:

Radial

Tire Load Maximum Capacity:

2200.0 pounds load limits

Criticality Code Justification:

Agav

Tire Strength:

2200 ply rating

Product Name:

Tire

Service Type:

Industrial utility trailer

Special Features:

Size dementions; 28 x 8.50 - 12 industrial; service speed; 15 mph at operational pressure; load rating: 2200 lbs at 15 mph ; the tire shall be permanatly marked with manufactureres name, size designation and date of manufacture.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A504s0
