**Maximum Inflation Pressure:**

70.0 pounds per square inch

**End Application:**

Special aircraft and engine tool and support equipment

**Features Provided:**

No flaps

**Tire Ply Arrangement:**

Radial

**Tire Load Maximum Capacity:**

2200.0 pounds load limits

**Criticality Code Justification:**

Agav

**Tire Strength:**

2200 ply rating

**Product Name:**

Tire

**Service Type:**

Industrial utility trailer

**Special Features:**

Size dementions; 28 x 8.50 - 12 industrial; service speed; 15 mph at operational pressure; load rating: 2200 lbs at 15 mph ; the tire shall be permanatly marked with manufactureres name, size designation and date of manufacture.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A504s0
