Tread Pattern:

Highway regular

Maximum Inflation Pressure:

120.0 pounds per square inch

End Application:

Various

Features Provided:

Flaps

Tire Air Retention Method:

Tube type

Tire Ply Arrangement:

Radial

Tire Load Maximum Capacity:

6610.0 pounds static load

Tire Strength:

H load range

Tire And Size Designation:

11r22.5 series

Service Type:

Over the road truck-bus

Special Features:

Load/ply rating h; specification catl 1922; load capacity (lbs) 6610

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A504s0
