Maximum Inflation Pressure:

80.0 pounds per square inch

End Application:

Trailer, boat

Service Type And Tread Design:

Military utility trailer all weather

Tire Air Retention Method:

Tubeless type

Tire Ply Arrangement:

Bias

Tire Load Maximum Capacity:

4080.0 pounds load limits

Tire Strength:

F load range

Product Name:

Tire, pneumatic, vehicular

Tire And Size Designation:

12-16.5lt numeric

Service Type:

Military trailer

Special Features:

diameter: 32.2 inches, weight: 65.86lbs, sidewall: black, measurerim width: 9.75 inches.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A504s0
