| Maximum Inflation Pressure:               |
|---|
| 110.0 pounds per square inch              |
| Service Type And Tread Design:            |
| Aircraft main wheel rib                   |
| Tire Air Retention Method:                |
| Tubeless type                             |
| Tire Ply Arrangement:                     |
| Bias                                      |
| Tire Load Maximum Capacity:               |
| 42500.0 pounds static load                |
| Tire Strength:                            |
| 22 ply rating                             |
| Tire And Size Designation:                |
| 20.00-20 numeric                          |
| Special Features:                         |
| Type 3; speed rating 174.0 knots per hour |
| Material:                                 |
| Plastic polyamide                         |
| Shelf Life:                               |
| N/a                                       |
| Unit Of Measure:                          |
|   |
| Demilitarization:                         |
| No  |
| Fiig:                                     |
| A504s0                                    |
