Application Design:

Aircraft nose wheel, type vi low profile

Size Designation:

16x4.4

Body Material:

Rubber, synthetic

Inflation Device Position:

Off center

Construction:

Regular

Base Construction:

Standard

Operating Temperature Range In Deg Celsius:

-54.0 to 93.0

Product Name:

Inner tube, pneumatic tire

Supplementary Features:

Emb-121xingu/falcon/ catalog figure 32-411 item 8

Specification Data:

81349-mil-i-5014 government specification

Specification Or Standard:

6 type and 2 class and 16x4.4 size

Departure From Cited Document:

As modified by size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A009a0
