Maximum Inflation Pressure:

51.0 pounds per square inch

End Application:

Used on cessna aircraft

Service Type And Tread Design:

Aircraft nose wheel grooved

Tire Air Retention Method:

Tubeless type

Tire Ply Arrangement:

Radial

Tire Load Maximum Capacity:

2300.0 pounds load limits

Tire Strength:

C load range

Tire And Size Designation:

650 x 8 numeric

Special Features:

650 by 8 6 ply flight custom iii tubeless tire

Material:

Glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A504s0
