Core Environmental Protection:

Corrosion resistant

Commercial Core Length Designator:

Short

Spring Material:

Steel, stainless

End Application:

Fmtv, hmmwv, armored reconnaissance-airborne assa

Size Designation:

Standard

Spring Tension Type:

High

Accessory Type:

Valve

Special Features:

Operating temp range in degrees fahrenheit -40 to +225

Fsc Application Data:

Pneumatic tire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T318-e
