**Core Environmental Protection:**

Corrosion resistant

**Commercial Core Length Designator:**

Short

**Spring Material:**

Steel, stainless

**Unit Package Quantity:**

100

**Unit Package Type:**

Box

**Size Designation:**

Standard

**Spring Tension Type:**

High

**Accessory Type:**

Valve

**Special Features:**

opening pressure - 80 psig; environmental protection - corrosion and heat resistant; temperature operation range -40 to +250 f; application - pneumatic;

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T318-e
