Core Environmental Protection:

Corrosion resistant

Commercial Core Length Designator:

Short

Spring Material:

Steel, stainless

Unit Package Quantity:

100

Unit Package Type:

Box

Size Designation:

Standard

Spring Tension Type:

High

Accessory Type:

Valve

Special Features:

opening pressure - 80 psig; environmental protection - corrosion and heat resistant; temperature operation range -40 to +250 f; application - pneumatic;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T318-e
