Core Environmental Protection:

Heat resistant and corrosion resistant

Commercial Core Length Designator:

Short

Spring Material:

Steel, corrosion resisting

Size Designation:

Standard

Spring Tension Type:

High

Special Features:

Designed for -65 deg. To +350 deg. F

Fsc Application Data:

Pneumatic tire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T318-e
