Core Environmental Protection:

Corrosion resistant and heat resistant and oil resistant

Commercial Core Length Designator:

Short

Spring Material:

Steel, corrosion resisting

Unit Package Quantity:

5

Unit Package Type:

Box

Size Designation:

Standard

Spring Tension Type:

High

Accessory Type:

Valve

Special Features:

Aircraft strut valves and accumulators application

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T318-e
