**Core Environmental Protection:**

Heat resistant and corrosion resistant

**Commercial Core Length Designator:**

Standard

**Spring Material:**

Steel, stainless

**Unit Package Quantity:**

100

**Unit Package Type:**

Box

**Size Designation:**

Standard

**Spring Tension Type:**

High

**Accessory Type:**

Valve

**Special Features:**

Size designation meets tire and rim association specification: tr-c4. Special features slot in the head of the pin for identification

**Specification Or Standard:**

1 class and 5 type

**Fsc Application Data:**

Pneumatic tire

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T318-e
