Valve Core - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/2640-00-810-5861

Core Environmental Protection:
Heat resistant and corrosion resistant
Commercial Core Length Designator:
Standard
Spring Material:
Steel, stainless
Unit Package Quantity:
100
Unit Package Type:
Вох
Size Designation:
Standard
Spring Tension Type:
High
Accessory Type:
Valve
Special Features:
Size designation meets tire and rim association specification: tr-c4. Special features slot in the head of the pin for identification
Specification Or Standard:
1 class and 5 type
Fsc Application Data:
Pneumatic tire
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T318-e
