Commercial Core Length Designator:

Standard

Spring Material:

Steel, stainless

End Application:

Pneumatic tire

Size Designation:

Standard

Spring Tension Type:

Low

Accessory Type:

Valve

Special Features:

operating pressure: 60 psig

Supplementary Features:

Designation explanation; core: short core length and standard bore size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T318-e
