Core Environmental Protection:

Corrosion resistant and heat resistant

Commercial Core Length Designator:

Short

Spring Material:

Steel, corrosion resisting

Size Designation:

Standard

Spring Tension Type:

High

Accessory Type:

Valve

Special Features:

Used on marine corporation (lav) light armored vehicle (nsn 2320-01-123-1612) also used on m871a1 trailer and m320t2 crane, designed for -65 deg. To +350 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T318-e
