Environmental Protection:

Corrosion resistant

End Application:

Mrap buffalo mk2a2

Unit Package Type:

Can

Basic Ingredient:

Vegetable oil potash soap

Maximum Viscosity At Rated Temp:

Not rated

Minimum Viscosity At Rated Temp:

Not rated

Content Within Each Unit Package:

25 lb pails

Special Features:

Dissolve mounting compound in water at rate of one part compound to four parts water to provide the proper strength solution to do the lubricating job

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T318-j
