Cylinder Quantity:

6

Starting Method:

Electric

Reduction Gear Ratio:

1.75 to 1

Cooling Type:

Direct water

Piston Displacement:

3032.000 cubic centimeters

Integral Reduction/reverse Gear:

Included

Outboard Drive Lubrication Method:

Forced feed

Propeller Material:

Steel, corrosion resisting

Special Features:

XI right handed

Fuel Type:

Gasoline

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T274-a
