Cylinder Quantity:

2

End Application:

Outboard motor, gasoline

Starting Method:

Manual

Cooling Type:

Direct water

Piston Displacement:

52.700 cubic inches

Special Features:

Trim method: manual; propshaft hp: 55hp @ 5500rpm; steering: tiller (drop down handle) ; alternator: 75a/110w output with regulator; shaft length: 20in; color: black

Fuel Type:

Gasoline

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T274-a
