Cylinder Quantity:

6

Starting Method:

Electric

Cooling Type:

Direct water

Piston Displacement:

200.0 cubic inches

Propeller Blade Quantity:

3

Propeller Attachment Method:

Locknut

Product Name:

Evenrude outboard motor

Fuel Type:

Gasoline

Supplementary Features:

225hp; shaft length 25 inches; power trim and tilt; steering: remote; gear ratio: 1.85: 1; recommended fuel: 87 octane; full throttle rpm range: 5250-6000; engine type: 60 degree v6 dohc; alternator output: 133 amps total output/ 50 amps net dedicated; 4 stroke; lubrication: multi-point, targeted oiling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T274-a
