Body Style:

Chamfered ends

Casehardening Indicator:

Not casehardened

Outside Diameter:

Between 5.12350 inches and 5.12400 inches

End Chamfer Angle In Deg:

15.0

Bore Diameter:

3.7500 inches

Body Length:

Between 10.6950 inches and 10.7000 inches

Bore Style:

Inside radii straight-thru bore

Bore Radius:

0.063 inches

Material:

Steel, sae 3115

Material:

Steel comp 3115

Material Specification:

Sae 3115 assn standard single material response

Fsc Application Data:

Engine, diesel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A09500
