Cylinder Quantity:

1

Cooling Medium:

Air

End Application:

Mep-016d 3kw gen set

Accessory Components And Quantity:

Modified fuel tank

Brake Horsepower At Specificationified Rpm:

6 bhp at 3600 rpm

Piston Action Type:

Single acting

Multifuel Usage Feature:

Not provided

Crankshaft Rotation Direction:

Counterclockwise

Starting Method:

Manual

Supercharger:

Not included

Starter:

Not included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T197-a
