Overall Width:

87.5 millimeters

End Application:

Engine, diesel, mn, p/n 109-3839/mod/wlb

Special Features:

Sensor-rotary position (heinzmann sg-02a), electrical classification ip 44, output shaft rotation 0-45 degrees, temperature range -40 degrees celcius to +100 degrees celcius, humidity to 100%, weight 0.8 kg, vibration to 8g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
