Product Name:

Pump, lubricating oil

Special Features:

Mr-lubricating oil pump structure code: mr 03 ebm engine design phase: eea/echo pump drive : cranke concentric maximum hp: 232 body
body material: aluminun body pump flow rate (lpm at rpm)98.5 liters at 2500 rpm piston cooling method: saddle or j-jet engine family
"b"series cylinders-engine asoiration: 6-charge air cooled. Sensor hole diameter: 18.0215 sensor mounting: 1 x m6.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A526g0
