Exhaust Pressure:

12.00 pounds per square inch gage

Mounting Position:

Horizontal

Shaft Rotation Direction:

Counterclockwise

Ahead Stage Design:

Impulse and reaction

Ahead Rated Horsepower At Specificationified Rpm:

1750 shaft hp at 3023 rpm

Ahead Impulse Stage Quantity:

1

Ahead Impulse Stage Rotation Blade Row Quantity:

2

Ahead Impulse Stage Stationary Blade Row Quantity:

1

Ahead Reaction Stage Quantity:

4

Ahead Reaction Stage Rotation Blade Row Quantity:

26

Ahead Flow Type:

Single

Ahead Initial Steam Gage Pressure:

226.0 pounds per square inch

Ahead Initial Steam Temp:

397.0 degrees fahrenheit

Lube Oil Cooler Assembled Form:

Separate

Throttle Valve Assembled Form:

Separate

Reference Number Differentiating Characteristics:

Akct

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T197-c
